Grocery Store

- I have made an grocery store using ASP.NET MVC (Entity framework), HTML,css and Bootstrap where users can purchase and order groceries online. The system is developed with a user-friendly and attractive GUI. It delivers a wide range of groceries available online..

To-Do List

- ToDo List is an application specially built to keep track of errands or tasks that need to be done. This application will be like a task keeper where the user would be able to enter the task that they need to do. Once they are done the tasks they can also remove them from the list.
